Construction Update for College Avenue Widening Project at U.S. 101 Eastbound Lane Closures, Monday – Friday, 8:30 a.m. to 4 p.m.

Santa Rosa –Caltrans continues to work on the south side of College Avenue, between Cleveland Avenue and Morgan Street.

Utility Work

Concrete demolition is complete and the Caltrans contractor will now begin trenching for utilities on the south side of College Avenue, between Cleveland Avenue and Morgan Street.

- In general, for the next few months, residents and businesses should expect that one lane of **eastbound College Avenue** will be closed as necessary from Cleveland Avenue to Morgan Street, Monday night through Friday, from 8:30 a.m. to 4 p.m.
- Driveways will be temporarily closed while the contractor works through the area.
- New sidewalks and driveways will be poured as soon as utility work is complete. Utility work is expected to continue for about four weeks.

This project will widen College Avenue at US 101 between Cleveland Avenue to the west and Morgan Street to the east of the interchange. Improvements include new bicycle lanes and pedestrian sidewalks in either direction, a second left-turn lane for eastbound College Avenue approach to the northbound US 101 on-ramp, and an extension of the westbound College Avenue to northbound Cleveland Avenue right-turn lane that will start at Morgan Street. New replacement traffic signals within project limits will provide further enhancement to the interchange.

For more information about the project, visit the Department's website at <http://www.dot.ca.gov/dist4/101collegeave>.
